Joevielse Geochi B. Cada

Web Developer | WordPress & JavaScript | AI-Powered Development (Claude Code, Base44, Lovable)

Manila, Philippines · +63 905 392 9063 · chichicada9@gmail.com

Live work: mycvportfolio.com · snfdchub.com · legacyhealthcarellc.com · axpancitconlechon.com · appkademiya.online

Professional Summary

Web developer who has been designing and building websites since 2022, with a B.S. in Information Technology. Builds faster by combining AI development tools (Claude Code, Base44 and Lovable) with hand-written code in WordPress (including custom themes), PHP, JavaScript, Java, HTML and CSS, then refines the output by hand in VS Code. Runs an independent resume and portfolio website business for clients and leads the build of SNFDCHub, a healthcare coordination platform, and a hospice scheduling and admissions project for Legacy Healthcare. Takes projects from client requirements through launch and ongoing maintenance.

Selected Projects

SNFDCHub Platform (CTO / Developer): snfdchub.com. Secure platform for skilled nursing facility discharges, referrals and care coordination. Built with Lovable, Supabase, HTML and CSS.

Legacy Healthcare LLC (Developer, ongoing): legacyhealthcarellc.com. Website and hospice scheduling and patient admission workflow for a Bay Area hospice provider, currently in development.

yourcvportfolio (Founder / Web Developer): mycvportfolio.com. A design portfolio and service for resumes and portfolio websites. Every design is real client work, including live portfolio sites for clients in architecture and marketing.

AX Pancit Con Lechon (Web Developer): axpancitconlechon.com. Live business website with direct online ordering, built from scratch to client specifications.

Appkademiya.online (Internship Role): appkademiya.online. Web project completed at RSG Anonimouse IT Solutions.

Professional Experience

Chief Technology Officer, SNFDCHub (USA) | Nov 2025 – Present

- Own the technical direction of the SNFDCHub platform, from architecture and core workflows through launch and continuous improvement.
- Designed and built the platform from the ground up, including user environments for Skilled Nursing Facilities and community providers, admin systems and user management.
- Developed referral management, document upload and sharing, messaging and notification features.
- Implemented provider networking and patient discharge workflows to support coordination between facilities.
- Provide ongoing technical support, maintenance and optimization using Lovable, Supabase, HTML, CSS and VS Code.

Founder & Web Developer, yourcvportfolio (mycvportfolio.com) | Freelance, since 2022

- Design and build resumes and portfolio websites for clients across professions, from brief to launch.
- Manage the full client process: requirements, design, revisions, delivery and yearly renewals.
- Turn each client's story and goals into a clear, personalized layout and a live website.
- Work with WordPress (including custom themes), PHP, JavaScript, HTML and CSS, and use AI tools such as Claude Code, Base44 and Lovable to build and iterate faster, refining the output by hand.

Web Developer, AX Pancit Con Lechon (Client Project)

- Designed and built a live production business website from scratch to client specifications.
- Translated client requirements into a customer-facing site with direct online ordering.

Virtual Assistant, BED Student Rentals (UK) | Jan 2024 – Dec 2025

- Managed digital records, documents, spreadsheets and operational workflows for a UK property business.
- Handled stakeholder communications and kept organized, accurate records.

Earlier Roles

- Real Estate Property Specialist, Ortigas Land (2023): client services and property transactions.
- Customer Service Representative, Qualfon Manila (2022): customer support and problem resolution.
- Graphic Artist, Terdji Artwork and Printshop (2017–2020): digital artwork and design materials, building the visual design foundation behind my web work.

Technical Skills

Web Development: WordPress (custom themes), PHP, JavaScript, Java, HTML, CSS, front-end development, platform development, system analysis, workflow design

AI Development Tools: Claude Code, Base44, Lovable, used to build, iterate on and ship websites and apps faster

Other Tools: Supabase, VS Code, Adobe Photoshop

Operations & Support: Troubleshooting, technical documentation, client communication and support, administration

Education & Credentials

B.S. in Information Technology, Adamson University (2018–2022)

STEM, St. Paul University Manila; DOST-MIRDC Work Immersion (2016–2018)

Awards: Top 9 Academic Excellence (2021) · Microsoft Technology Associate (2020) · Dean's Lister (2018–2019)
